

BHAVANI KODUR

React Developer | Dubai, UAE | +971 588270367 | bhavanikodur14@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFILE SUMMARY

React Developer with 2+ years of experience building scalable, high-performance web applications using React.js, JavaScript (ES6+), TypeScript, HTML, CSS. Expert in Redux, React Query state management and RESTful API integration. Proven ability to collaborate with UI/UX designers and backend teams to deliver responsive, user-friendly interfaces. Proficient in Git, Agile methodologies, writing clean, maintainable code, and troubleshooting. Learning React Native, GraphQL, CI/CD.

TECHNICAL SKILLS

Frontend: React.js • JavaScript (ES6+) • TypeScript • HTML5 • CSS3 • Redux • React Query • Zustand • Bootstrap • Tailwind CSS
Backend & APIs: Node.js • PHP • RESTful APIs • JSON • Axios • GraphQL (Learning)
Mobile: React Native (Learning) • Android/iOS concepts
Tools: Git • GitHub • Agile/Scrum • Figma • CI/CD pipelines (Familiar)
Database: MySQL • SQL
Practices: Clean Code • Performance Optimization • Unit Testing • Debugging • Problem-solving • Multitasking • Time Management

WORK EXPERIENCE

Full-Stack Developer | Modsoft Technology AI Development, Dubai | Nov 2023 – Dec 2024

- Developed and maintained React-based applications with optimal performance and responsiveness using Redux and React Query for state management
- Collaborated with UI/UX designers to implement visually appealing, user-friendly interfaces from Figma mockups
- Integrated RESTful APIs with Node.js and PHP backend, ensuring seamless data flow
- Built scalable applications using JavaScript (ES6+), TypeScript, HTML5, CSS3 with modular, reusable components
- Optimized applications for speed and scalability through code optimization and performance monitoring
- Utilized Git for version control in Agile team environment, conducting code reviews via pull requests
- Wrote clean, maintainable, well-documented code following best practices with strong debugging and troubleshooting

Frontend Developer | Next-Engineering Consultants, Dubai | *Dec 2022 – Nov 2023*

- Developed responsive **React.js** applications using **Material UI**, **Bootstrap**, **Redux** for optimal user experience
- Built **scalable web interfaces** following **React best practices** with modular component architecture
- Worked with **UI/UX designers** using **Figma** to translate designs into pixel-perfect interfaces
- Integrated frontend with **RESTful APIs (Node.js, PHP)**, handling authentication and data processing
- Optimized **performance** through efficient **state management** with **Redux**
- Participated in **Agile development** processes with cross-functional teams

Frontend Developer | Drive7 Services, Dubai | *Aug 2019 – Dec 2020*

- Designed interactive dashboards using **React.js**, **Material UI**, **Bootstrap**, **JavaScript**, **HTML**, **CSS**
- Managed **SQL/MySQL** database operations for application requirements
- Conducted **testing and troubleshooting** ensuring smooth application performance
- Demonstrated strong **problem-solving** skills in **debugging** and optimizing UI performance

KEY PROJECTS

Next Engineering Website | React.js, RESTful APIs, Tailwind CSS, Responsive Design

Freakins E-commerce | React.js, WooCommerce, Redux, Payment Integration

Drive7 GPS Dashboard | React.js, Real-time Data, Bootstrap, API Integration

Gold Gym Platform | React.js, Material UI, Responsive Design

E-commerce Site | React.js, Redux, State Management, UI/UX

EDUCATION

Bachelor of Technology | JNTU Hyderabad, India | 2014 – 2018

Visa: Spouse Visa | **Availability:** Immediate | **Relocate:** Yes
